

Dr. Deb Goswani

Accelerated Data Science and Generative AI

Nvidia

Dr. Deb Goswami spearheads the expansion of Nvidia's Accelerated Data Science and Generative AI developer community across the Asia Pacific South and ANZ Regions. With over a decade of experience in driving the adoption of enterprise AI solutions in the region, Dr. Deb is dedicated to nurturing the developer ecosystem throughout their AI endeavors.

Prior to his tenure at Nvidia, Dr. Deb held influential positions tackling complex AI challenges across diverse sectors in the APAC region, including Media, eCommerce, AdTech, Telco/Oil & Gas industries.

Dr. Goswami earned his PhD in Face Recognition from the University of Surrey, complementing his academic journey with a BEng (Hons) in Electronic Engineering from the same institution. His academic background underscores his profound understanding of AI technologies and their practical applications across industries.
